

PSS-23FORD-F150

8-Speaker Premium Sound System Upgrade for 2018-25 Ford F-150 Crew Cab

PRODUCT OVERVIEW

Upgrade your 2018–2025 Ford F-150 XL, XLT, or STX Crew Cab with Alpine's plug-and-play 8-speaker sound system, delivering rich clarity, powerful bass, and precision tuning with Alpine's OPTIM8® DSP—engineered for a seamless fit and optimized sound performance in your F-150.

PRODUCT FEATURES

Plug-and-Play Install – Enjoy a true plug-and-play audio upgrade with no cutting, splicing, or guesswork. This system includes custom vehicle-specific harnesses and brackets, making installation simple and clean for any 2018–2025 Ford F-150 XLT Crew Cab owner, perfect for DIY or professional installs.

Powerful Bass Upgrade – The included 600W RMS dual 8" subwoofer enclosure packs serious low-end punch. Designed to fit neatly under the rear seat, this powerful bass upgrade delivers tight, impactful sound without sacrificing cabin space or factory aesthetics.

Tuned for F-150 – Engineered with Alpine's OPTIM8® DSP featuring AutoEQ 2.0, this system is pre-tuned specifically for the acoustics of your F-150's interior. The result is a precision-calibrated soundstage that delivers balanced audio with deep bass, crisp highs, and clear vocals in every seat.

Clear, Rich Audio Performance – Hi-Res Audio Certified S-Series speakers replace your factory speakers with high-performance components that reveal the full range of your music. From subtle details to loud dynamics, this system delivers clear, rich sound that brings your favorite tracks to life.

PSS-23FORD-F150
