

PSS-23FORD-F150BO

8-Speaker Premium Sound System Upgrade for *2018-24 Ford F-150

ALPINE

**Designed for models with factory-equipped 8-speaker B&O audio system*

PRODUCT OVERVIEW

Upgrade your *2018–2024 Ford F-150 Crew Cab with Alpine's plug-and-play 8-speaker sound system—delivering rich clarity, powerful bass, and precision audio, all engineered for a seamless fit and optimized in-cabin performance.

**Designed for models with factory-equipped 8-speaker B&O audio system*

PRODUCT FEATURES

Plug-and-Play Install – Enjoy a true plug-and-play audio upgrade with no cutting, splicing, or guesswork. This system includes custom vehicle-specific harnesses and brackets, making installation simple and clean for any *2018–2024 Ford F-150 Crew Cab owner, perfect for DIY or professional installs.

Powerful Bass Upgrade – The included 600W RMS dual 8" subwoofer enclosure packs serious low-end punch. Designed to fit neatly under the rear seat, this powerful bass upgrade delivers tight, impactful sound without sacrificing cabin space or factory aesthetics.

Tuned for F-150 – Powered by Alpine's S2-A55V amplifier, this system is acoustically matched to the F-150's cabin for a balanced sound experience. Enjoy bold bass, clean highs, and detailed vocals—all designed to bring your music to life in every seat.

Clear, Rich Audio Performance – Hi-Res Audio Certified S-Series speakers replace your factory speakers with high-performance components that reveal the full range of your music. From subtle details to loud dynamics, this system delivers clear, rich sound that brings your favorite tracks to life.

PSS-23FORD-F150BO
