Digital Remote Controller

**DRC-100**

Connects to the JLID Port of a compatible device.

### Description:

The DRC-100 is a panel-mount, wired digital remote controller designed to connect to the "JLID port" of compatible JL Audio electronics.

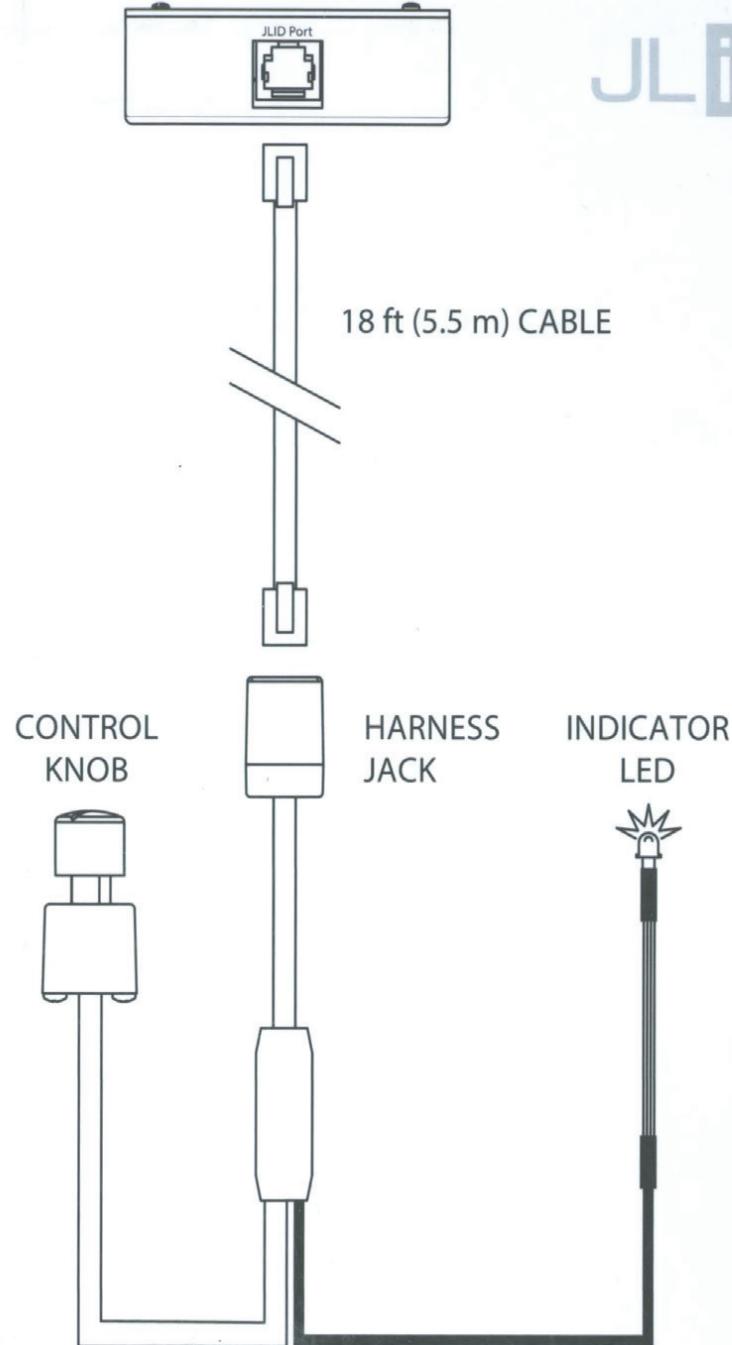

### Functions:

- Rotary knob with stops
- Push-button mode selector
- Status indicator (RGB LED)

### Common uses include:

- Master Volume
- Subwoofer Volume
- Preset or Mode Selection

The specific audio functionality of the DRC-100 controller will be determined by the device it is connected to.

Note: Components pictured may not be to scale.
