

AX-ANR1000

ELECTRONIC NOISE SUPPRESSORS

This Electronic Noise Suppressor is designed to actively cleanse noises generated by sources such as generators, alternators and inducted radio frequencies from the positive voltage line in mobile audio systems. Active filters are more accurate and responsive than passive filters, are easy to install and are cost effective.

Wiring connections are as followed:

BLACK = (-) GROUND

RED = (+) 12 VOLT OUTPUT

GREEN = (+) 12 VOLT INPUT

KNOWLEDGE IS POWER

Enhance your installation and fabrication skills by enrolling in the most recognized and respected mobile electronics school in our industry. Log onto www.installerinstitute.com or call 800-354-6782 for more information and take steps toward a better tomorrow.

Inline Power
Noise Filter

INTEGRATION DEVICE

AX-ANR1000

- Filters noise from the positive power line
- Handles up to 35 amps
- Green is the power wire input
- Red is the output to the source
- Black goes to ground
