MCK2000 Mounting Kit

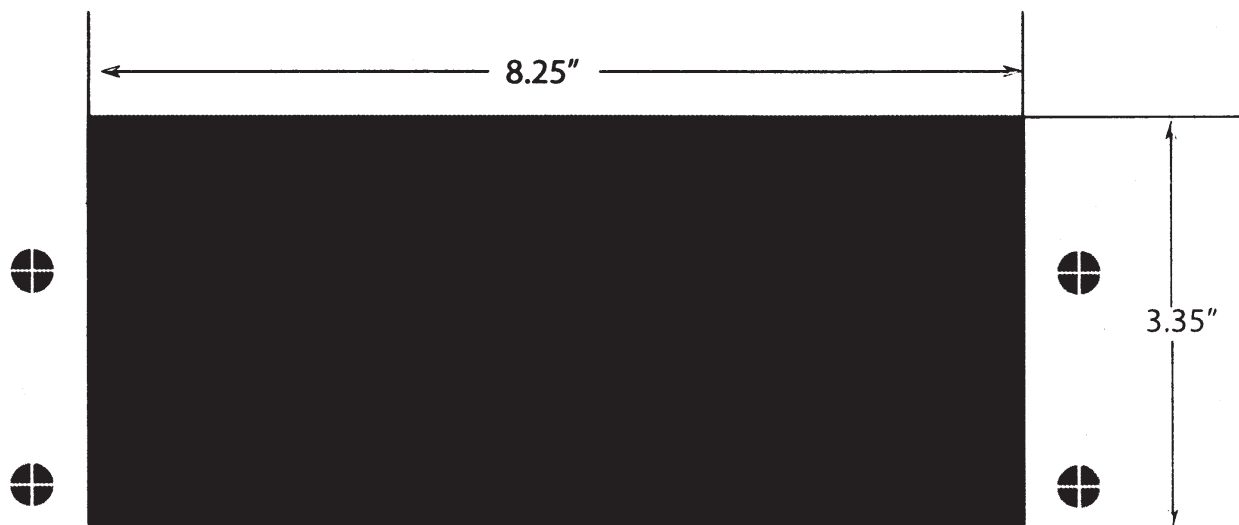

FOR MARINE APPLICATIONS

INSTALLATION INSTRUCTIONS

1. Verify dash opening and screw holes are correct size for marine kit. If so, using supplied gasket mount in opening. The right side panel of the kit will open to give access to mounting holes and the left side will remove.
2. If opening and screw holes are not correct use the diagram below for a reference to cut the opening and predrill for the mounting screws.

NOTE: Once the opening is the correct size you can use the marine kit as a template for your screw holes.

Fig A

DIN MOUNT INSTALLATION INSTRUCTIONS

1. Insert DIN metal-sleeve from your new radio into the radio opening of the installation kit.
2. Depress the tabs from inside the sleeves opening upward, outward, and downward to secure sleeve to the installation kit.
3. Slide new radio through DIN metal-Sleeve until it locks in place.
