

# Rockford Fosgate

## EXCEEDS AMERICAN WIRE GAUGE STANDARDS

Rockford Fosgate accessories are designed and engineered in accordance with the AWG or American Wire Gauge specification – which is **THE STANDARD** method of denoting wire diameter.

Don't be fooled by competitors that use cost-saving foreign or no specifications at all – using thick jackets to hide wires containing 25-50% less copper.

## MORE COPPER... MORE POWER... BETTER SOUND!

**OURS** 4 GAUGE (AWG) WIRE      **THEIRS** 4 GAUGE WIRE

1,862 copper strands

Our true 4 Gauge (AWG) wire has 2X more copper and a jacket with no filler to deliver MAXIMUM power

735 copper strands

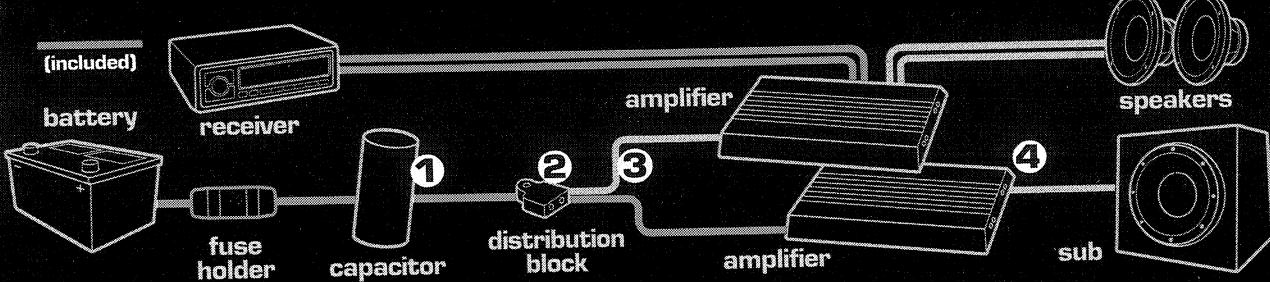

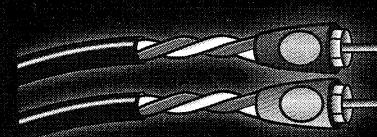

Their 4 Gauge wire has 60% LESS COPPER and a filler jacket to deliver MINIMAL power

## CLEANER SIGNAL... LESS INTERFERENCE... BETTER SOUND!

## **TWISTED PAIR**

Helps reduce noise for  
**ENHANCED SOUND QUALITY!**

Each channel is twisted, alternating the positive and negative conductors.

## Don't Forget...

**1 Capacitors** - Keep your amps stable and your speakers from distorting. Delivers more BASS!

**2 Distribution Blocks** - Use on main power wires to distribute power to multiple components.

**3 Speaker Wire** - High strand count copper wires ensure maximum output.

**4 Crimp Rings & Spades** - Use on power and speaker wires for secure connections.
