Table of Contents

Dash Disassembly	2
Kit Assembly	3

TOOLS REQUIRED

- Panel removal tool • Phillips screwdriver

CAUTION! All accessories, switches, climate controls panels, and especially air bag indicator lights must be connected before cycling the ignition. Also, do not remove the factory radio with the key in the on position, or while the vehicle is running.

Dash Disassembly

1. Unsnap and remove the side trim panels from the center console. (Figure A)
2. Unsnap and remove the climate control panel. (Figure B)
3. Remove (2) Philips screws securing the radio and then remove. (Figure C)

Continue to kit assembly

95-7812B

Kit Assembly

ISO DIN radio provision with pocket

1. Attach the supplied (6) *plastic clips* to the *radio trim panel*. (Figure A)
2. Attach the *radio brackets* to the *radio trim panel*. (Figure B)
3. Slide the radio into the assembly, and then secure it using the screws supplied with the radio. (Figure C)
4. Locate the factory wiring harness and antenna connector in the dash and complete all necessary connections to the radio. Metra recommends using the proper mating adapter from Metra and/or AXXESS. Test the radio for proper operation.
5. Install the completed assembly into the dash, and then reassemble the dash in reverse order of disassembly.
