Caution

Metra recommends disconnecting the negative battery terminal before beginning any installation. All accessories, switches, and especially air bag indicator lights must be plugged in before reconnecting the battery or cycling the ignition.

****NOTE: Refer also to the instructions included with the aftermarket radio.***

KNOWLEDGE IS POWER

Kit Assembly 99-7880B

ISO DIN head unit provisions

1. Locate the factory wiring harness in the dash. Metra recommends using the proper mating adapter from Metra or AXXESS. Re-connect the negative battery terminal and test the unit for proper operation.
2. Mount the factory radio brackets to the head unit with the screws supplied with the unit. (Figure A)
3. Mount the Metra pocket to the brackets using the supplied screws. (Figure A)
4. Mount the radio assembly into the dash and snap the radio housing panel over the radio assembly. (Figure B)
5. Reassemble dash in reverse order of disassembly.

(Figure A)

(Figure B)

Kit Assembly 99-7880B

Double DIN head unit provisions

1. Locate the factory wiring harness and antenna plug in the dash. Metra recommends using the proper mating adapter from Metra or AXXESS. Re-connect the negative battery terminal and test the unit for proper operation.
2. Mount the factory radio brackets to the new head unit with the screws supplied with the unit. (Figure A)
3. Mount the radio assembly into the dash and snap the radio housing panel over the radio assembly. (Figure B)
4. Reassemble dash in reverse order of disassembly.
