

### Nissan Multikit 2005-2015 Suzuki Equator 2009

#### KIT FEATURES

- ISO DIN radio provision with pocket
- ISO DDIN radio provision

#### KIT COMPONENTS

- A) Radio housing • B) Radio brackets • C) Pocket • D) (4) #8 x 3/8" Phillips screws

#### TABLE OF CONTENTS

See page 2

#### WIRING & ANTENNA CONNECTIONS (sold separately)

Wiring Harness: Please visit [metraonline.com](http://metraonline.com) for options

Antenna Adapter: Please visit [metraonline.com](http://metraonline.com) for options

#### TOOLS REQUIRED

- Phillips screwdriver • Panel removal tool

**CAUTION!** All accessories, switches, climate controls panels, and especially air bag indicator lights must be connected before cycling the ignition. Also, do not remove the factory radio with the key in the on position, or while the vehicle is running.

## APPLICATIONS

### Nissan

|                                       |           |
|---------------------------------------|-----------|
| Frontier LE .....                     | 2005-2008 |
| Frontier S .....                      | 2011-2012 |
| Frontier S (king cab).....            | 2013-2015 |

|----------------------|---|

### Kit Assembly

|                                             |   |
|---------------------------------------------|---|
| – ISO DIN radio provision with pocket ..... | 5 |
| – ISO DDIN radio provision.....             | 6 |

## DASH DISASSEMBLY

### Nissan Pathfinder 2005-2012

**Note:** Do not cycle the key while the dash is removed or the air bag light will come on.

1. Unclip and remove the trim panel from around the cup holders, in the center console. (Figure A)
2. Unclip and remove the shifter trim panel, including the pocket below the radio, and the a/c controls. (Figure B)
3. Unclip and remove the panel at the top of the radio, then remove (1) Phillips screw underneath. (Figure C)

(Figure A)

(Figure B)

(Figure C)

4. Unclip and remove the entire trim panel surrounding the radio, including the a/c. (Figure D)
5. Remove (4) Phillips screws securing the radio to remove. (Figure E)

*Continue to Kit Assembly*

(Figure D)

(Figure E)

## DASH DISASSEMBLY

**Nissan Frontier 2005-2015,  
Xterra 2005-2013  
Suzuki Equator 2009**

**Note:** Do not cycle the key while the dash is removed or the air bag light will come on.

1. Unclip and remove the panel at the top of the radio, and remove (1) Phillips screw underneath. (Figure A)
2. Unclip and remove the entire trim panel surrounding the radio, including the a/c controls. (Figure B)
3. Remove (4) Phillips screws securing the radio to remove. (Figure C)

*Continue to Kit Assembly*

(Figure A)

(Figure B)

(Figure C)

## KIT ASSEMBLY

### ISO DIN radio provision with pocket

1. Attach the *radio brackets* to the *radio trim panel*. The following step will secure the brackets in place. (Figure A)
2. Attach the *pocket* to the *radio brackets* using the (4) #8 x 3/8" Phillips screws provided. (Figure B)
3. Remove the metal DIN sleeve and trim ring from the aftermarket radio.
4. Slide the radio into the bracket/pocket assembly, and then secure it using the screws supplied with the radio. (Figure C)

(Figure A)

(Figure B)

5. Locate the factory wiring harness and antenna connector in the dash and complete all necessary connections to the radio. Metra recommends using the proper mating adapter from Metra and/or Axxess. Test the radio for proper operation.
6. Secure the radio assembly to the dash using the factory screws.
7. Reassemble the dash in reverse order of disassembly to complete the installation.

(Figure C)

## KIT ASSEMBLY

### ISO DDIN radio provision

1. Attach the *radio brackets* to the *radio housing*. The following step will secure the brackets in place. (Figure A)
2. Attach the *radio brackets* to the radio using the screws supplied with the radio. (Figure B)
3. Locate the factory wiring harness and antenna connector in the dash and complete all necessary connections to the radio. Metra recommends using the proper mating adapter from Metra and/or Axxess. Test the radio for proper operation.
4. Secure the radio assembly to the dash using the factory screws.
5. Reassemble the dash in reverse order of disassembly to complete the installation.

| - Provisión de radio ISO DDIN.....            | 6 |

## DESMONTAJE DEL TABLERO

### Nissan Pathfinder 2005-2012

**Nota:** No cicle la llave sin tener instalado el tablero o la luz de la bolsa de aire se encenderá.

1. Desenganche y quite el panel de moldura que rodea los portavasos en la consola central. (Figura A)
2. Desenganche y quite el panel de moldura de la palanca de velocidades de abajo del radio y los controles del aire acondicionado. (Figura B)
3. Desenganche y quite el panel de la parte superior del radio, luego quite (1) tornillo Phillips de abajo. (Figura C)

(Figura A)

(Figura B)

(Figura C)

4. Desenganche y quite todo el panel de moldura que rodea el radio, incluyendo el aire acondicionado. (Figura D)
5. Quite los (4) tornillos Phillips que aseguran la radio para eliminar. (Figura E)

*Continúe con el ensamble del kit*

(Figura D)

(Figura E)

## DESMONTAJE DEL TABLERO

**Nissan Frontier 2005-2015,**

**Xterra 2005-2013**

**Suzuki Equator 2009**

**Nota:** No cicle la llave sin tener instalado el tablero o la luz de la bolsa de aire se encenderá.

1. Desenganche y quite el panel de la parte superior del radio, luego quite (1) tornillo Phillips de abajo. (Figura A)
2. Desenganche y quite todo el panel de moldura que rodea el radio, incluyendo el aire acondicionado. (Figura B)
3. Quite los (4) tornillos Phillips que asegurar la radio para eliminar. (Figura C)

(Figura A)

(Figura B)

(Figura C)

*Continúe con el ensamble del kit*

## ENSAMBLE DEL KIT

### Provisión de radio ISO DIN con cavidad

1. Fije los *soportes de radio* a la *carcasa* de la radio deslizando las ranuras en los soportes, dentro de la carcasa. El siguiente paso asegurará los soportes en su lugar. (Figura A)
2. Sujete una *cavidad* a los *soportes del radio* usando los (4) tornillos #8 de 3/8" Phillips suministrados. (Figura B)
3. Quite la manga de metal DIN y el anillo de moldura del radio de mercado secundario.
4. Deslice el radio en el ensamble terminado y luego sujételo al ensamble con los tornillos suministrados con el radio. (Figura C)

(Figura A)

(Figura B)

5. Localice el *arnés de cableado de fábrica* y el *conector de la antena* en el *tablero* y realice todas las conexiones necesarias al radio. Metra recomienda el uso de un adaptador adecuado de acoplamiento de Metra. Pruebe el radio para verificar si funciona bien.
6. Sujete el ensamble completo al *tablero* utilizando los tornillos de fábrica.
7. Vuelva a ensamblar el *tablero* en el orden inverso al del *desmontaje* para completar la *instalación*.

(Figura C)

## ENSAMBLE DEL KIT

### Provisión de radio ISO DDIN

1. Fije los *soportes de radio* a la *carcasa* de la radio deslizando las ranuras en los soportes, dentro de la carcasa. El siguiente paso asegurará los soportes en su lugar. (Figura A)
2. Conecte los *soportes de radio* a la radio con los tornillos suministrados con la radio. (Figura B)
3. Localice el arnés de cableado de fábrica y el conector de la antena en el tablero y realice todas las conexiones necesarias al radio. Metra recomienda el uso de un adaptador adecuado de acoplamiento de Metra. Pruebe el radio para verificar si funciona bien.
4. Sujete el ensamble completo al tablero utilizando los tornillos de fábrica.
5. Vuelva a ensamblar el tablero en el orden inverso al del desmontaje para completar la instalación.
