

INTEGRATION PERFORMANCE

IP-VWB25.4 Multi-Mount Wide-Band Speaker

2.5" Wide-band compact speaker

Introducing the latest addition to our Universal Integration Series: the IP-VWB25.4, a 2.5" multi-mount wide-band speaker that delivers impressive performance in a compact size.

Designed with versatility in mind, this component integrates effortlessly into a range of car brands.

Its unique fitment tabs ring ensures easy, flexible installation in the A-pillar, front center channel, or front doors.

Boasting a frequency response of 90Hz-20kHz, it offers detailed highs and dynamic sound quality, all driven by a large fiberglass voice coil former and double neodymium magnet motor encapsulated by motrel's Morel's signature Uniflow™ aluminum die-cast chassis design for improved strength and airflow.

Key advantages

- 2.5" Compact size multi-mount wide-band speaker
- Frequency response of 90Hz-20kHz
- Powerful double neodymium magnet motor
- Uniflow™ aluminum die-cast chassis
- Large fiberglass voice coil former

Specifications

Type	Multi-mount wide-band speaker
Size	2.5" (63mm)
Nominal Impedance (ohm)	4
Nom. Power Handling (Wrms)	40
Max Power Handling (W)	80
Sensitivity (2.83 V/1M) dB	86
Frequency Response (Hz)	90-20,000
